# AS AN INVESTOR YOU CAN

## #INVEST WITH YOUR DMAT ACCOUNT & AVAIL OUR GUARANTEED FIX RETURN BENEFITS.

### # Highlights:

- Complete control of your money & transactions, No need to transfer money to trader
- Get guaranteed fixed return upto 16%

### # How It Works:

1. A trading account will be opened by the name of Investor in any of the SEBI authorized stock broking houses. ( SBI / Reliance/ Motilal Oswal etc )
2. Investor can start the investment with minimum investment amount of 1.5 lakh
3. We (Trader) will provide the services to manage the account and perform trades on behalf of the investor
4. Every (Quarter) 3 months:
  - All the profits will credited to investor bank account
  - Investor will keep the quarterly profit (as per agreed percentage) and transfer the extra profits as a service charge to the trader.
  - Account summary & status will be shared with investors.
  - In case of any loss, (or profits less than agreed percentage), trader will transfer the deficit amount to the investor account.

## # TERMS

1. A 40 days prior notice must be given in case of withdrawal of principal amount. Full principal and quarterly return up to last quarter will be credited. Partial principal withdrawal can also be availed.
  - In case of withdrawal, no deductions will be made to principal amount & complete principal withdrawal can be availed. Returns will be calculated on quarterly pro rate basis. (If withdrawal is made in between of a running quarter, that quarter return cannot be availed)
2. Trader hold the right to terminate the services after returning complete principal amount with agreed quarterly return up to last quarter to investors.
3. Investment & returns are NOT subjected to market risks. In case of any loss, trader is liable to pay the amount as per quarterly return percentage to the investor.
  - Principal amount will be secure and fixed to the amount invested, and change only in case of withdrawal or addition of principal.
4. Trader will not charge any extra service charge from investor, Trader will keep profits made from trade after providing agreed return to investor (12 / 15 / 16 %).
5. It will be investor responsibility to manage the formalities of the DMAT account on his name (like annual maintenance, kyc etc.), Trader will be responsible for making the trades and providing the agreed returns.
6. At the end of the service agreement, trading account will be closed & investor will not demand for access to trading methods.

## # FAQ'S

- Guaranteed fixed return percentage vs investment (all in INR) chart:
  - i) 3 lakhs and above -> 16 % return
  - ii) 2 lakhs to 3 lakhs-> 15 % return
  - iii) 1.5 lakhs to 2 lakhs -> 12 % return
- What is the minimum balance amount: A minimum of 1.5 lakhs is required to avail the benefits of fixed returns in this mode.
- Will profits add on to Principal amount: Principal amount will be fixed to amount invested. Profits will be released to investors every quarter.
- What if I want to increase my principal : In order to increase your principal amount, you can invest in multiples of lot price after initial investment.
- What is single lot price : Rs. 70,000
- Can i invest more than 70,000 initial amount: yes, but any amount exceeding 70,000 must be in multiples of single lot price. ie, 70,000
- When can i invest: Investment can be made between - 5th to 15th day of any month.
- Where and how do we invest your money: We invest your money in Nifty F&O Options. This is similar to Mutual funds but in a more secure & superior way.
- How do we guarantee such high returns: We have done the research and have expertise in trading techniques with past 6 years in the same way and already providing 16% + return to existing clients.
- Is there a lock-in period: There is no lock-in period or transfer charges, only client have to notify us 40 days prior in case of withdrawal of principal amount.
- How client will pay for services: All the profits will be credited to linked investor bank account quarterly. Extra profits (more than agreed quarterly return) amount credited to investor account must be paid to trader as service charge.
